SEARCH NOTES (INCLUDING SEARCH STRATEGY)		
	DATE	EXMR
Inventor name STIC consulted Jeffrey Fredman extensively regarding this search. He felt it was very comprehensive and would	8/6/2004	KK
pick up any art that is out there. NOTE: that STIC back translates all proteins into the nucleic acid database so that a		
search of na's will also pick up translated proteins. EAST STN		
JK consulted regarding 112/2 of clm 38 vis a vis the disclosed sequence listing - no 112/2 found
